For Telegraphic Despatches, Sec Third Page. A Tres Picreus. The Albany Argus, the old

and able organ of New York "democracy," presents in the following searching inquiry, a daguerseut pa picture of the Administration party: "Can envlody point to a friend of the Administration of the Administration" in this State, who is not an incumtent of office under the present Pierce and Marcy Administration, or a relative or near friend of the who is? It is literally a party of office-holders, without numerical strength, and with even less influence or respect than the Administration itself."

The same question may be asked, with equaforce and relevancy, of our State Administration-Hea it a friend or supporter in the State who is net connected with it by some tie of persona princest? Is it not, indeed, in its faith and works its character and standing-or, rather its lack o hadn-a fac simile of the "Pierce and Macry Administration," as portrayed by the Albany Argus and how do the People like the consequences of corporaing "regular nominations" and going blind for bogus "Democracy?" DONTERRY WHIS CONVENTION, - The Petersburg

() 2 ,) Istalligencer, an old whig paper, has the z-use to see that under the late condition of and ogs there can no longer be any firm alliance between Northern and Southern Whige. It is to is regretted that we cannot find some way to express our grateful sense of the noble patriotism and self ascrifice of such men as Bell, Cullom, Foot, and a few other Southern Whigs, who, mong the faithless, alone stood faithful to right, jestice and honor. The Pstersburg paper says;
The Southern Whige having thus been descrited
to the hypocrites of the North, who so long
played a double game with us, the question will
tertsandly saise as to what is our true policy—
In the absence of something which we cannot
now rationally expect, we cannot believe that the
Whige of the South will consent to be represented in a so-called Whige National Convention—
in gointo such a body would be no place their
threats at the polnts of the knives of the freesoil butchers. It would be an endorsement of
treachery, and a ville submission to multiplied
the cannot be submission to multiplied
to take and insults. Should this view of the subject be taken by Southern Whige generally, as
we amostedy hope it may, it will then be necessary to take some other action. belies and honor. The Petersburg paper says

We throw out, then, for the consideration of our southern Whig brethern, the suggestion of hold-of a Southern Whig Convention in some central point of the South—say Columbus, Ga., for inpoint of the South—say Columbus, Ga., for in-stance—either during the coming autumn or in the spring, to consider of the policy and duty of the Whigs of the South. Although the Whigs of the South may never be able to elect a Whig of their choice to the presidency, they can exercise an influence most potential for good. Upon one perstantification can act with the Democrats of the South. They can co-operate in the acquisition of Caba, and thus place two Slave States in the way of Northern agression, while it would throw open to Southern enterprise and Southern cities the trade of the most fertile and beautiful island of the ocean.

The holding of such a Convention as we propresent may be terrord sectional. Well, let it be so it is sectional, and maint to be so. What are the striken Whigs now doing? Acting sectionally not he purpose of violating the Constitution—Look as their votes on the Nebraska bill, and the see if it will lay in their mouths to rebuke the Whige of the South for holding a sectional contention to devise ways and means to protect the Constitution from their own ruthless meanlts

....In the Net linuphire House of Representatives; on Friday last. Mr. Dongs (democrat) moved to assign Tuesday following, for the election of two United States Senstors. Mr. Eastway (whig) moved to amend by substituting (Friday) to-day. This amendment prevailed by six majority. Great doubt baugs over the result. The so-called "Deracontie" party has a small majority in each House, but included in this majority are several moinizers who are pledged to vote against any roan for Scustor who is in favor of the Nebraska Inequity. As the election is made by the concurzeus vote of the two Houses, and not in joint balbut, it is possible that a choice may be defeated by the failure to agree.

The News intimates that Senster Doceas is to be invited to Milwaukee, to enlighten the people here on the subject of the Nebraska bill, and threatens us with a repetition of his splendid speech in Market Hall in 1852." We think it will take a good many such speeches, and much abler political doctors than Mr. Douglas, to emo the very decided anti-Nebraska feeling of our city and State.

▲ Figure or Spreen.—Mr. Straub, a member of Congress from Pennsylvania, in a speech which he made upon the Nebraska bill, got off the following new figure of speech:

This, to my mind, is the best proof I ever saw that the lion and the lamb never were created to be birds of the same feathers.

A closgyman catechising the scholars in a Wisconsin Sundry school, asked a little boy how be thought donah felt, while in the whale's belly? Pretty well down in the mouth, sir," was the prompt reply.

NEW YORK AND ITS SESSEES.—The population of New York City and suburbs within a radius of twelve miles, was in 1840, 399,091; in 1850 769,071; and is now in 1854, 1,020,939.

New York, June 10, 1854. Massas Epirous: -The leafy month of Junethe first of the summer trie and the freshest and tenderest of them too, rescubling in that particular the crisp of various esculents which do tolown the season; to say nothing of the virgin neclousness of rips strawberries and the juicy berry of every hue, endeared to most sons of nother Eve, since the day of cordurny pantaloons -is full upon us. Now the sound of the first nosquito and fire-cracker has been heard in our land; now the sun's horizontal and perpendicular rays draw moisture from the heated pedestrian and the costumes of the crowded pave are changing into shades of light, and fancy and fashion leck their votaries with garments gossamer like in texture and januty in the "tout ensemble."-Now is the season of mad dogs and over driven uage, of pic-nice, fishing excursions to the banks; nahing in hot heste, by countless thousands, paricularly on Sunday, to the suburbs of the great netropolis, where fresher air, if not better habits,

Now is the orn of serenades, and softening sounds of sweetest midnight music, float on the moonlit air, rousing one from a dreamy slumbor to a consciousness of a doubtful existence in the seventh heaven of Mahomet. No one who ever heard the pentle breathings of Dodworth's band at midnight, discoursing perhaps to love and youth and beauty, perhaps only two bricks off from his own enchanted self, could by any possibility conjura up an invention by way of argument against the subtile power and wonderful usefuless of the divine act. But Barnum has got a card out for next Thursday, which really does him a great deal of credit, and if carried out as extensively as intended, will be a great stop in the murch of music in America, and an attraction second to none ever offered the public. I allude, of course, to the grand Musical Convention in preparation, which will ambrace talent from all parts of the country, forming an orchestra of 1500 performers, it is estimated, though it will probably fall far short of that number, besides hundreds of vocal performers, all to be under the direction of Mons, Jullien, who has still with him most of his eroinent soloists. It may be over-heled form.—The Nebraska scheme, contrived by northern demagogues, "conceived in sun, and brought forth in iniquity,"—the consummation of which involved the violation of good faith and solemn compacts, does not seem to promise such brilliant results to the slave interests as was intended. The excitement that has been raised upon the subject, has fired the American spirit of enterprise to see what the country is composed of, and what are its advantages. S. law, by which any person resisting an officer engaged in the service of a legal process, shall, on conviction, be imprisoned not more than twelve months, and fined not exceeding three hundred dollars. He instructed the jury that all present when such resistance is made are alike guilty, if leagued in the common design. So also are those who counsel such acts. He applied these principles to the recent violent outbreak in Boston, and instructed the Jury to present for trial all such persons as have so participated in them.

A great, we may say the greatest feature of the ball was the magnificant estamet of Max Su-taine & Co.'s which was in operation all the evenng after eleven o'clock. It would puzzle us to give a fair description of it, but we trust that some give a fair description of it, but we trust that some of our illustrated papers leve had their artists there, and will furnish us with a picture of that frotting, founding, roaring Niagara of Champagno. A beautiful artificial cataract of some thirty feet fall had been made up of real trees, rocks, shells and flowers, sessisted by some clever peinted offects and at eleven o'clock, when the Max Sutaine holks was played, a sudden stream of Champagne from three to four feet in width, began to tumble down the catasect. Six mon, as we understand, were stationed under the cares of the reof, behind the ten of the fell before the reof, behind he top of the falls heally cutting cerks and empt-ving bordes the whole time. Shou the vast space of the hall was filled with the aroma of fervescent and genial wine, and over 3,000 bottles we learn were consumed.

archouse, just before the Traveller arrived yesterday afternoon. One of the combatants was in n omnibus and the other on the ground. They ere separated by Mr. Davis Jr. and the brothers McCarty, Cabmen. We have never seen a fight, at either the cars, or the landing of steam boats, when these two McCarty's were present, but they at once interfered to prevent it, and separate the compatants; and we must say that if all others who own, or drive Cabe, Omnibusses, &c., were structurentrates. ctuated by the same spirit, fights would be o rare occurrence, and there would be no need or ries for a special police.

The Steamer Traveller arrived from Ch ago yesterday afternoon with 276 passenger and a large load of freight. The Traveller was followed by the Pacific from the same port which landed more passengers and freight.

BITE OF A RATTLESNAKE—DRUNKENNESS AREME BITEOF A RATTLESNARE—BRUNKENNNSS AREMIBY,—We happen to know something about this,
und can suggest an effectual remedy. "We mean
falcoholic liquor. The philosophy of it is simply
this:—The venom of a serpent is a powerful sedative, which it requires powerful stimulants to
counteract. We once saved the life of a valuable
domestic by giving him, in the absence of any
other liquor, a whole bottle of alcohol, in does
of half a turbler at sime. It was only when other liquor, a whole bottle of alcohol, in doses of half a tumbler at atime. It was only when he drank the last pertion that intoxication showed itself—so powerful was the sedetive faction of the poison. Once make a man who has been bitten by a venomous reptile drank, and the victory is achieved. From that moment he is safe, and the sore may be treated as an ordinary and slight flesh wound.—New Orleans Crescent, June 2.

A German emigrant recently presented himself at a passenger office in Dunkirk with a through ticket for one handred and twesty-four prisons, and "all in the family" at that.

THE FEVER SUBSIDING .- The N. Y. Tribune of Monday last says:

"The Street Preaching in this City and Brooklyn yesterday passed off without serious disturbance, although the town had been for the whole week rife with remors of riots to come. The result, gratifying as it is, is not to be attributed to any increased regard for "low and order" on the part of the beliggerents, but to three other causes: First, the ample preparations of the authorities to put down rioting at any sacrifice; secondly, the conder councels of the leaders (if they have leaders) in the mysterious order of "Enow-"Nothings;" and thurdly, the personal efforts of Archbishop Enghes and the Roman Oatholic Clergy generally in going among their people and entreating and commanding them to abstain from acts of violence. If this course is persevered in cut both sides, the turbulent and reckless will soon quit the field, and the atreet preachers, finding no listeners, will necessarily abandon their inflammatory shouting." MCSKETS AGAINST SPADES.—The United States army numbers about 10,000 men, who coats the country last year \$9,525,240 for pay, subsistence, clothing, etc. The Illinois Central Railroad army numbers 19,000 men, who receive from the my numbers 1,000 men, who receive from the Company \$3,700,000 per annum. In three years they will make 700 miles of road, adding greatly to the wealth of the State and Country. In thirty years the United Stases have spent \$200,000,000, for which they have nothing to show but some old forts, guns, battered uniforms, and demoralized veterans.—Alb Ex.
